Guest Speakers: Mrs. Gross's 4th Grade Math Class

- Mrs. Gross's 4th grade math class presented a summary of their West Park Redesign project. The students have been working on this project since the beginning of the school year. They have met with engineers from the City of Lake Forest and representatives from NuToys, a local company from which the City of Lake Forest purchases park equipment. The students: measured the playground area of the park; assessed safety concerns related to the existing playground structures; measured the footprint of the current equipment; and identified the simple machines used in the existing structures. The students each made a scale drawing with new equipment they picked adhering to the City of Lake Forest's requirements (e.g. have a slide, have equipment for toddlers, include swings for more than one person, etc.) Further, each student put together a budget including the price of the new pieces of playground equipment, a total, and how this compared to the \$80,000 budget. Finally, the students also assessed Sheridan's back playground. They plan to submit a grant proposal to the Spirit of 67 for funds to construct a new playground at Sheridan. Great job students!

Guest Speaker: Barry Rodgers, Asst. Superintendent of Curriculum, Instruction, Technology & Assessment K-12

- Barry Rodgers introduced himself to the Sheridan parents including a summary of his background and prior experience. Mr. Rodgers was most recently the principal at LFHS for two years before he was promoted to his current shared position within Districts 67 & 115. Prior to that, Mr. Rodgers was principal at Northside College Prep, the #1 ranked high school in the state of Illinois in 2013.
- Mr. Rodgers discussed many of the changes the District is implementing as part of the shift to "21st Century" learning. Mr. Rodgers is excited about the continued change and innovation within the District. For example, yesterday he was at the opening of a new STEM lab at a Lake Forest District school. Mr. Rodgers took questions from parents primarily relating to the multitude of curriculum changes seen throughout Sheridan stemming from the change to "21st Century Learning". He stated that this type of feedback is useful and he appreciated the opportunity to meet with Sheridan's parents.

Principal's Report: Dr. Michelle Shinn

- Conferences have begun and will continue through next week. Parents will see a new report card format that aligns to the Common Core and includes specific target areas for student growth. There is also a new grading system ranging from 1-4. Dr. Shinn will be sending out a parent information sheet further explaining the new report card.
- Sheridan launched its House System last week at a Sharing Assembly. The students seem very excited to meet new friends within their Houses. Parents received an email requesting each child's

t-shirt size. Dr. Shinn and the Sheridan Team are working on finalizing the House t-shirt order. At future Sheridan Sharing Assemblies students will sit with their housemates and certain days will be designated as days to wear House t-shirts. Additionally, other events will be structured around the Houses similar to the recent H.U.G.S. Food Drive in order to encourage cross-grade interaction and friendship among housemates. More to come!

APT Committees Reports

Meals for Our Teachers: Rachel Baker, Becky Nagel

- The Meals For Teacher's Committee is using Volunteer Spot to put together a Mexican themed dinner on Nov. 23rd for the teachers who are at school late that evening for parent conferences. Food is requested to be delivered to the Café (formerly known as the Teacher's

Lounge) by 4:15pm on the 23rd in order for sufficient set up time. Becky Nagel, Rachel Baker and their children will set up, help serve/replenish as needed, and clean up.

H.U.G.S. Food Drive (Community Service): Carrie Cole, Rae Ann Alvarez, Sarah Lockhart

- Sheridan successfully collected food for Lake County Cares Thanksgiving food drive last week and this week. This year the food items were split by House instead of grade to foster House collaboration.
- After the first day of sorting through the donated food, Lake County Cares finds themselves in desperate need of powdered milk, canned yams/sweet potatoes, and canned pork & beans. Lake County Cares' goal with this food drive is to help feed at least 500 needy Lake County families this Thanksgiving. They are still getting deliveries from people who conducted food drives, but even with those deliveries, they know it will be a challenge to meet this goal. Please donate the above mentioned items or stuffing, corn bread mix, and canned fruit, as there is also a need for these items. Food donations can be brought to the Gorton Community Center in Lake Forest by Thursday morning.

Spiritwear: Shannon Maguire, Jessica Muller

- Online sales were double the amount sold on the morning of the Sheridan walkthrough in September. This was the first year there was an online ordering option. In summary, 76 items (aprox \$1,400) was ordered online and 43 items (aprox \$750) were purchased/ordered during the morning of Sheridan's walkthrough.

Staff Holiday Cookie Boxes : Kristin McCain, Jessica Muller, Brooke Rolek, Laura Whisler

- Please see the volunteerspot online sign-up for staff holiday cookie boxes at <http://sheridanapt.weebly.com>. This event is similar to last year in that people can volunteer to bring cookies or ribbons. Sheridan has expanded the list of people who receive a plate of cookies to include Sheridan's night maintenance staff. Reminder: you do not have to bake the cookies as cookies purchased from the store are welcome as well. Also, if you are bringing in gluten free cookies, please be sure to properly label them.

Yearbook: Beth Laufenberg, Tracy Barrett, Debbie Jensen

- Great progress is being made. The cover photos of the 4th graders were taken on picture day and will be submitted shortly. You are still able to order a yearbook for your child if you have not done so. The deadline for classroom collage pages is December 17th.
